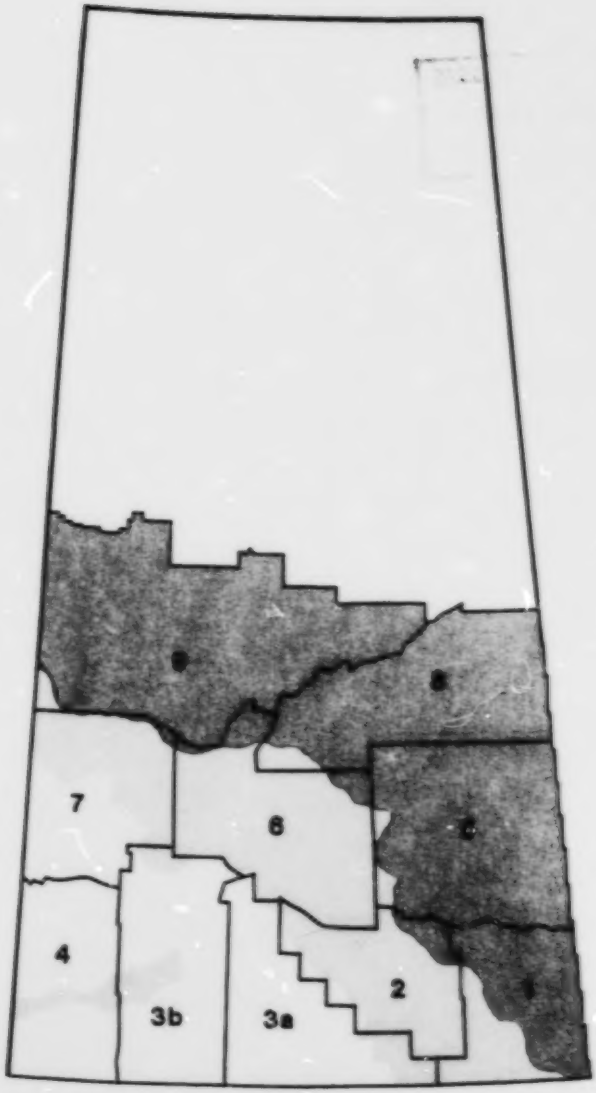
Agricultural Statistics 1987



91-03001/

On the front cover...

The front cover shows an outline map of Saskatchewan indicating the nine crop districts and three soil zones. Much of the crop and livestock production data in the handbook is presented by crop district. The soil zone demarcation shows the variation in growing conditions in Saskatchewan.

As most of Saskatchewan's soil is predominantly of loamy texture, production capabilities are determined largely by weather conditions and the presence of organic matter. The brown soil zone covers 21.0 million acres in southwest Saskatchewan. The relatively warm temperatures, lack of moisture and lack of organic matter in this arid region limit crops to small grains and the use of grassland for livestock production.

The dark brown soil zone, covering 18.3 million acres, lies north and east of the brown zone. A small area, with the characteristic cooler temperatures and more moisture, is also evident around the Cypress Hills in southwest Saskatchewan.

The black soil zone covers 26.4 million acres in the north and east of the agricultural area. The growing period is shorter but the lower temperatures and increased moisture allow for a wider variety of cropping practices.

FOREWORD

Agricultural Statistics is a handbook containing Saskatchewan agricultural statistics. Agricultural Statistics 1987 is our twelfth statistical handbook and includes the latest statistics on the agricultural financial situation, crops, livestock and weather and climate.

Sources of the information contained in this handbook include Statistics Canada, Agriculture Canada, Canada Grains Council, Canadian Wheat Board, Canadian Grain Commission, Environment Canada, Farm Credit Corporation, Manitoba Department of Agriculture, Saskatchewan Crop Insurance Corporation, Agricultural Credit Corporation, Saskatchewan Pork Producers Marketing Board, Saskatchewan Sheep and Wool Marketing Commission, Saskatchewan Beef Stabilization Board, Saskatchewan Milk Control Board, Saskatchewan Turkey Producers Marketing Board, Saskatchewan Chicken Producers Marketing Board, Saskatchewan Commercial Egg Producers Marketing Board, Natural Products Marketing Council and the Branches of Saskatchewan Agriculture.

We hope the handbook will be useful to agriculture's decision-makers--producers, agribusiness, government. We welcome suggestions for changes and improvements. If you have any comments or enquiries, please contact:

FARM FINANCE

1. Population and Land Base, Saskatchewan, 1971-86..... 1
2. Number and Size of Saskatchewan Farms, 1906-86..... 1
3. Value of Farm Capital in Saskatchewan, 1949-87..... 2
4. Average Value of Farm Land (including buildings) in Saskatchewan, 1949-87..... 3
5. Amount and Source of Outstanding Agricultural Debt, Saskatchewan, 1971-86..... 3
6. Agricultural Credit Corporation of Saskatchewan Loan and Grant Approvals by Type, Year Ending March 31, 1974-87..... 4
7. Farm Improvement Loans Act Loans, by Purpose, Saskatchewan, 1971-87..... 4
8. Farm Credit Act Loan Disbursements and Approvals, Saskatchewan, Year Ending March 31, 1971-87..... 5
9. Farm Credit Act Loans, by Type of Farm, Saskatchewan, Year Ending March 31, 1983-87..... 6
10. Age Distribution of Farm Credit Act Borrowers, Saskatchewan, Year Ending March 31, 1983-87..... 7
11. Saskatchewan Farm Purchase Program, Year Ending March 31, 1983-87.. 7
12. Cash Receipts, Expenditure and Farm Income from Farm Operations, Saskatchewan, 1926-87..... 8
13. Income of Farm Operators from Farming Operations, by Province, 1987..... 10
14. Forecast Income of Farm Operators from Farming Operations by Province, 1988..... 10
15. Total Cash Receipts from Farming Operations, by Province, 1971-87.. 12
16. Realized Net Income of Farm Operators from Farming Operations, by Province, 1971-87..... 12
17. Cash Receipts from Farming Operations, Saskatchewan, 1978-87..... 14
18. Farm Operating Expenses and Depreciation Charges, Saskatchewan, 1978-87..... 16
19. Income of Farm Operators from Farming Operations, Saskatchewan, 1978-87..... 16
20. Farm Product Price Index, Saskatchewan and Canada, 1971-87..... 18
21. Farm Product Price Index, Saskatchewan, 1971-87..... 19
22. Farm Input Price Index, Western Canada, 1971-87..... 20
23. Average Prices for Selected Farm Inputs, Saskatchewan, 1985-87..... 22
24. Herbicides Used for Weed Control, Saskatchewan, 1971-87..... 26
25. Retail Fertilizer Sales, Saskatchewan, Year Ending June 30, 1983-87..... 26
26. Selected Farm Machinery Sales, Canada and Western Canada, 1983-87.. 27
27. Value of Saskatchewan Agricultural Exports, 1986-87..... 27

CROPS

28. Summerfallow Acreage, Saskatchewan, 1916-87..... 28
29. Winter Wheat Production and Value, Saskatchewan, 1981-87..... 28
30. Spring Wheat Production and Value, Saskatchewan, 1916-87..... 29
31. Durum Production and Value, Saskatchewan, 1941-87..... 30
32. Oats Production and Value, Saskatchewan, 1916-87..... 32
33. Barley Production and Value, Saskatchewan, 1916-87..... 34
34. Rye Production and Value, Saskatchewan, 1916-87..... 36

35. Flaxseed Production and Value, Saskatchewan, 1916-87..... 38
36. Canola Production and Value, Saskatchewan, 1943-87..... 40
37. Tame Hay Production and Value, Saskatchewan, 1921-87..... 41
38. Winter Wheat Acreage, Yield and Production, by Crop District, 1981-87..... 43
39. Spring Wheat Acreage, Yield and Production, by Crop District, 1978-87..... 47
40. Durum Acreage, Yield and Production, by Crop District, 1978-87..... 51
41. Oats Acreage, Yield and Production, by Crop District, 1978-87..... 55
42. Barley Acreage, Yield and Production, by Crop District, 1978-87.... 59
43. Rye Acreage, Yield and Production, by Crop District, 1980-87..... 63
44. Flaxseed Acreage, Yield and Production, by Crop District, 1978-87.. 67
45. Canola Acreage, Yield and Production, by Crop District, 1978-87.... 71
46. Ten-Year Average Yields, Saskatchewan, by Rural Municipality, 1978-87..... 73
47. Area, Yield and Production of Specialty Crops, Saskatchewan, 1986-87..... 79
48. Specialty Crops Area Seeded, Saskatchewan, 1971-87..... 79
49. Specialty Crops Yields, Saskatchewan, 1971-87..... 80
50. Specialty Crops Prices, Saskatchewan, 1971-87..... 80
51. Forage Seed Production, Saskatchewan, 1978-87..... 81
52. Average Dates of Seeding and Harvesting Operations for Spring Wheat, Saskatchewan, 1952-87..... 82
53. Average Protein Content of Hard Spring Wheat, Saskatchewan, by Crop District, 1983-87..... 83
54. Spring Wheat Grades, Saskatchewan, 1978-87..... 83
55. Grades of Grains and Oilseeds, Saskatchewan, 1986-87..... 84
56. Spring Wheat Grades, Saskatchewan, by Crop District, 1987..... 84
57. Stocks of Crops on Farms, Saskatchewan, July 31, 1960-87..... 85
58. Farm Supply & Disposition of Major Crops, Saskatchewan, Crop Years 1983-84 to 1986-87..... 86
59. Canadian Wheat Board Payments for Wheat and Durum, Basis in Store Thunder Bay, Crop Years 1971-72 to 1987-88..... 87
60. Canadian Wheat Board Payments for Oats, Basis in Store Thunder Bay, Crop Years 1971-72 to 1987-88..... 88
61. Canadian Wheat Board Payments for Barley, Basis in Store Thunder Bay, Crop Years 1971-72 to 1987-88..... 89
62. Average Canadian Wheat Board Selling Quotations, Basis in Store Thunder Bay, Crop Years 1974-75 to 1986-87..... 90
63. Average Saskatchewan Wheat Pool Street Price Quotations, Crop Years 1974-75 to 1986-87..... 90
64. Canadian Wheat Board Prices Basis Thunder Bay, Crop Years 1986-87, 1987-88..... 91
65. Grain and Oilseed Freight Rates, from Saskatoon, Crop Years 1981-82 to 1987-88..... 92
66. Primary Elevator Handling Charges, Saskatchewan Wheat Pool, Crop Years 1981-82 to 1987-88..... 92
67. Number and Capacity of Licensed Primary Elevators, Saskatchewan and Prairies, August 1, 1971-87..... 93
68. Canadian Wheat Board Cash Advances to Producers, Prairie Provinces, Crop Years 1957-58 to 1986-87..... 94
69. Western Grain Stabilization Program, 1976-86..... 95
70. Saskatchewan Crop Insurance Program, Crop Years 1961-62 to 1986-87..... 96

LIVESTOCK AND POULTRY

71. Livestock on Farms, Saskatchewan, June 1, 1916-73, July 1, 1974-87..... 97
72. Average Livestock Prices, Saskatchewan, 1931-87..... 99

73. Livestock Marketed, Saskatchewan, 1976-87.....100
74. Cattle on Farms, Saskatchewan, June 1, 1932-73, July 1, 1974-87....101
75. Cattle on Farms, Saskatchewan, by Crop District, June 3, 1981 and 1986 and July 1,1987.....102
76. Cattle on Farms, Saskatchewan, December 1, 1941-72, January 1, 1974-88.....105
77. Origin of Cattle Marketed, Saskatchewan, 1986-87.....106
78. Destination of Saskatchewan Cattle Marketed, 1983-87.....107
79. Monthly Average Saskatchewan Beef Stabilization Board A1,2 Steer Price, 1983-87.....107
80. Saskatchewan Cattle Prices, 1983-87.....108
81. Pigs on Farms, Saskatchewan, June 1, 1932-73, July 1, 1974-87, December 1, 1932-72, January 1, 1974-88.....109
82. Pigs on Farms, Saskatchewan, by Crop District, June 3, 1981 and 1986 and July 1, 1987.....111
83. Pigs Marketed through Saskatchewan Pork Producers Marketing Board by Size of Producer Marketings, 1983-87.....112
84. Origin of Pigs Marketed through Saskatchewan Pork Producers Marketing Board 1983-87.....113
85. Index of Pigs Marketed through Saskatchewan Pork Producers Marketing Board, 1983-87.....114
86. Destination of Pigs Marketed through Saskatchewan Pork Producers Marketing Board, 1983-87.....114
87. Monthly Average Index 100 Hog Price, Saskatchewan, 1985-87.....115
88. Hog-Barley Ratio, Winnipeg, by Month, 1971-87.....115
89. Sheep on Farms, Saskatchewan, June 1, 1932-73, July 1, 1974-87, December 1, 1940-72, January 1, 1974-88.....116
90. Sheep on Farms, Saskatchewan, by Crop District, June 3, 1981 and 1986 and July 1, 1987.....118
91. Sheep and Lambs Marketed by the Saskatchewan Sheep and Wool Marketing Commission, 1975-87.....119
92. Average Monthly Heavy Lamb Price, Saskatchewan, 1983-87.....120
93. Production, Value and Disposition of Shorn Wool (Greasy Basis), Saskatchewan, 1978-87.....120
94. Farm Sales of Milk and Cream, Saskatchewan, 1978-87.....121
95. Cash Receipts from Sales of Milk and Cream, Saskatchewan, 1978-87.....121
96. Saskatchewan Farm Cream Sales, 1972-87.....121
97. Saskatchewan Milk Production and Value, 1971-87.....122
98. Saskatchewan Milk Production by Control Area, 1985-87.....122
99. Saskatchewan Milk Sales, 1971-87.....123
100. Average Milk Pool Producer Price, Saskatchewan, 1971-87.....123
101. Average Monthly Group I Milk Pool Producer Price, Saskatchewan, 1983-87.....124
102. Chickens and Turkeys Placed in Saskatchewan, 1983-87.....125
103. Fowl and Chicken Production, Saskatchewan, 1971-87.....125
104. Turkey Production, Value and Disposition, Saskatchewan, 1971-87....126
105. Hatchery Production, Saskatchewan, 1983-87.....126
106. Poultry Marketings Through Registered Processing Stations, Saskatchewan, 1983-87.....126
107. Interprovincial Movement of Chicks, Poults and Eggs, 1986-87.....127
108. Registered Chicken Production and Value, Saskatchewan, 1971-87.....127
109. Distribution of Registered Chicken Quota Holdings at January 1, Saskatchewan, 1984-88.....128
110. Registered Chicken Marketings by Class, Saskatchewan, 1983-87.....128
111. Saskatchewan Chicken Marketing Board Prices, Live, F.O.B. Farm, 1983-87.....129
112. Registered Turkey Production and Value, Saskatchewan, 1971-87.....130
113. Registered Turkey Marketings by Class, Saskatchewan, 1983-87.....130

114. Destination of Registered Turkey Marketings, Saskatchewan, 1983-87.....131
115. Saskatchewan Turkey Producers Marketing Board Prices, Live No. 1, F.O.B. Farm, 1983-87.....131
116. Egg Production and Disposition, Saskatchewan, 1971-87.....132
117. Registered Egg Production and Value, Saskatchewan, 1974-87.....133
118. Distribution of Registered Egg Quota Holdings at January 1, Saskatchewan, 1983-87.....133
119. Monthly Average Egg Price (Grade A Large) to Producers, Saskatchewan, 1983-87.....134
120. Honey and Beeswax Production, Saskatchewan, 1971-87.....135
121. Per Capita Disappearance of Meat and Eggs, Canada, 1961-87.....136
122. Saskatchewan Livestock Stabilization Programs, Year Ending March 31, 1977-87.....137

130. Metric Conversion Factors Used.....148

1987 AGRICULTURE NEWS REVIEW

January

1 - the rate of **excise tax** on gasoline and diesel fuel increased 1.0 cents per litre to 4.5 cents per litre for gasoline and to 3.0 cents per litre for diesel fuel. The federal **fuel tax rebate** increased 1.0 cents per litre to offset the increase in the excise tax rate. Effective January 1, 1987, federal fuel tax rebates totalled 8.0 cents per litre: excise tax rebate--1.5 cents; fuel tax rebate--6.5 cents.

13 - **Canada Packers** announced plans to expand cattle slaughter in its Moose Jaw plant by 1 000 head per week. The expansion would increase weekly slaughter to 3 600. The announcement followed the December 1986 announcement that Canada Packers was closing the slaughtering plant in Winnipeg.

28 - Saskatchewan Premier Grant Devine and Don Ravis, M.P. announced the relocation of the **Bovine Blood Typing Laboratory** from Ottawa to Saskatoon and that the new facilities would open **February 2, 1987**.

- Saskatchewan Premier Grant Devine announced that Saskatchewan planned to negotiate entry into the **National Tripartite Beef Stabilization Plan**. Saskatchewan would join Alberta, Ontario and Prince Edward Island.
- the **Canadian Import Tribunal** announced its finding that subsidizing of dry pasta from the European Economic Community has not caused, is not causing and is not likely to cause material injury to production in Canada. All proceedings, which were initiated in July 1986, ceased and all duties collected since October 1986 were being refunded.
- the Saskatchewan Public Utilities Review Commission ordered that, effective **February 1, 1987, Saskatchewan Power Corporation** increase farm electrical rates by 8.5%.

29 - Saskatchewan Premier Grant Devine announced that provincial government owned **hopper cars** would be provided, at no charge, for winter rail movements from Thunder Bay to eastern ports.

30 - the Canadian Wheat Board announced the results of the 1985-86 wheat, barley and oat pool accounts. The wheat pool account ended in a deficit of $23.0 million ($1.215 per tonne), the barley pool deficit was $171.4 million ($34.641 per tonne) and the oat pool deficit was $6.9 million ($34.876 per tonne). The C.W.B. announced **1985-86 final payments** totalling $48.34 million for durum, designated oats and designated barley on December 30, 1986.

- the **Saskatchewan Hog Assured Returns Program** announced that no stabilization payments would be made for the October-December 1986 program period.
- the **National Tripartite Stabilization Committees** reported that no stabilization payments for cattle, hogs or lambs would be made for the fourth quarter 1986.
- Saskatchewan experienced above normal **temperatures** and below normal precipitation during January. Nighttime lows below -25°C were reported on a few nights at mid-month while daytime highs were above freezing on numerous days. The average temperature for the month was ten degrees above normal for most reporting stations. January **precipitation** amounts varied from 10% of normal in western regions to near normal in northern areas. Most of the month's snowfall occurred early in the third week. Southern areas recorded additional snowfall at month end.

February

2 - the Deputy Minister of National Revenue, Customs and Excise announced a final determination of subsidizing with respect to imports of grain corn from the United States but reduced the duty to $0.849 U.S. per bushel. A provisional duty of $1.047 U.S. was applied November 7, 1986. The **Canadian Import Tribunal** announced **March 6, 1987** its finding that subsidizing of imports from the U.S. has caused, is causing and is likely to cause material injury to production in Canada and maintained the duty of $0.849 U.S. per bushel. Subsequent to the finding, the C.I.T. held public interest hearings and reported, on **October 20, 1987**, to the Minister of State for Finance that the duty should be no higher than $0.30 per bushel ($0.228 U.S.). A duty exceeding $0.30 per bushel was considered unfair to users of corn.

4 - **Federal Transport Minister** John Crosbie and Canadian Wheat Board Minister Charles Mayer announced that Dr. James Leibfried would conduct a **grain handling efficiency study** of various ways of moving grain from the Prairies to export position. Recommendations of the study, released **June 27, 1987** included: a temporary freeze on investment in cleaning equipment at port terminals, experimental programs to encourage cleaning at inland positions and a market outlook study for screenings and pellets.

- longshoremen at the **Port of Quebec** reached a tentative agreement to end the lockout which began in September 1986.
- United States **eased import requirements** on cattle shipped from Ontario and Quebec after the provinces were declared brucellosis free. Cattle would be eligible for entry following a single blood test.

10 - production began at the **Gainers Inc.** bacon plant in North Battleford. North Battleford was chosen as the site for the bacon processing plant in February 1986.

12 - the **Saskatchewan Beef Stabilization Board** mailed payments totalling $1.1 million to participants of the **Saskatchewan Beef Market Insurance Program** for the October-December 1986 program period.

18 - **Federal Finance Minister** Michael Wilson presented the **1987 Budget** which included: a 1.0 cents per litre increase in the **excise tax** on gasoline and diesel fuel, effective **February 19, 1987**; a 1.0 cents per litre increase in the federal **fuel tax rebate** to offset the increase in the excise tax; increasing the federal sales tax on leaded gasoline to the rate applicable to unleaded gasoline effective **April 1, 1987** and a commitment to tax reform. Effective February 19, federal fuel tax rebates for farmers totalled 9.0 cents per litre: excise tax rebate--1.5 cents; fuel tax rebate--7.5 cents.

- with the exception of northern areas and isolated locations in southern Saskatchewan, February **precipitation** was below normal. Most of the snowfall was received at mid-month and at month-end. Although overnight lows of -20°C to -30°C were reported, above freezing **daytime temperatures** resulted in average temperatures of 5°C - 8°C above normal.

March

- the **Western Grain Stabilization Administration** proposed and subsequently implemented, retroactive to August 1, 1986, a new definition of designated purchasers to include feedlots which purchase 1 000 tonnes of grain. Under previous regulations, purchasers were not required to purchase a minimum amount of grain to qualify under the program.

10 - the Canadian Wheat Board announced that producers would be able to reassign **non-Board acreages** to other grains effective **August 1, 1987**. The announcement reinstated the previous policy of allowing full reassignment and reversed the policy in effect for the 1986-87 crop year.

26 - Canadian Wheat Board Minister Charles Mayer announced that a series of amendments to the **Prairie Grain Advance Payments Act** received royal assent. The amendments included streamlining procedures to enable the Canadian Wheat Board to enact emergency provisions more quickly; basing cash advances on the amount of grain in storage rather than on acreage and quota; setting interest rates in relation to current interest rates; and removal of the requirement that landlords co-sign an application. The Act provides interest- free cash advances, of up to $30 thousand for an individual producer, when sales opportunities are limited.

- Saskatchewan recorded above average **temperatures** during March with above freezing temperatures reported throughout the month. Below normal temperatures were recorded during the second week. With the exception of central locations, March **snowfall** was above normal. Most of this snow was received late in the third week. **Winter precipitation** (November-March) amounts were well below normal throughout much of the province's agricultural area. Exceptions were the southeast which approached normal and north central locations where snowfall was normal to above normal. The mild winter with below normal snowfall removed most of the snow cover across much of the province by month-end.

April

1 - the lake **freight rate** for shipping grain from Thunder Bay to transfer elevators in Montreal declined from $25.67 per tonne to $16.22 per tonne.

- cattle **brand inspection** fees in Saskatchewan increased from $0.50 per head to $1.00 per head.
- the **Saskatchewan cattle marketing deduction** increased from $0.50 per head to $1.00 per head.
- Multi-Year Disaster Benefit included in **Canada-Saskatchewan Crop Insurance Program** to provide additional coverage of ten percent of the area-average yield to farmers in regions that suffered losses from disasters in two consecutive years.

3 - Federal Agriculture Minister John Wise and Neal Hardy, Minister Responsible for Saskatchewan Crop Insurance Corporation announced that Saskatchewan producers would receive compensation for **migratory waterfowl damage** in 1986. Payments under the Canada-Saskatchewan Waterfowl Crop Damage Compensation Agreement for 1985 losses totalled $6.43 million.

- the Canadian Grain Commission filed a notice of intent that there would be no change in the maximum tariffs of charges for licensed primary, terminal and transfer elevators for the 1987-88 crop year with the exception of costs of drying high moisture grain and the rate for administering producer cars. The notice of intent also proposed that most fees for C.G.C. services, including inspection and licensing, would be increased to cover the cost of providing the services. On June 22, 1987, the C.G.C. filed a notice of intent that: withdrew the proposal to charge a $50.00 documentation fee on all producer cars; retained the fee for self-administered producer cars delivering to the Canadian Wheat Board; and proposed a $20.00 per car fee for processing of applications for producer cars.

7 - Federal Agriculture Minister John Wise announced that Farm Credit Corporation interest rates were being lowered for loans approved after April 3. The rate for five-year fixed interest term loans was lowered to 10% and the rate for ten-year fixed term was lowered to 10 3/4%. Loans with fixed terms of 15 or more years remained at 11%.

10 - The Canadian Transport Commission dismissed the appeals against lower freight rates for grain transportation proposed by C.N. Rail and six grain companies. The C.G.C. ordered dismissal of the appeal subject to the condition that the lower rates be extended to all points on C.N.'s lines in the Western Division which were capable of loading 18 hopper cars in a 24-hour period; all the loaded cars would be bound for the same destination; and the loading must be on tracks capable of carrying fully-loaded hopper cars. C.N. Rail and the grain companies applied to offer incentive rates in December 1986 for the 1987-88 crop year.

14 - Saskatchewan Premier Grant Devine announced that rental rates for cultivated Crown land leases would decline an average of 15% to $11.00 per acre in 1987.

- the Saskatchewan Hog Assured Returns Program announced no stabilization payments would be made for the January-March 1987 program period.

20 - Canadian Wheat Board Minister Charles Mayer announced 1987-88 initial payments for the base grades of wheat, oats and barley. Initial prices were set at $110.00 per tonne ($2.99/bu.) for No. 1 C.W.R.S. Wheat basis Thunder Bay; $110.00 per tonne ($2.99/bu.) for No. 1 C.W.A. Durum; $55.00 per tonne ($0.85/bu.) for No. 1 Fd. Oats; $100.00 per tonne ($1.54/bu.) for No. 1 C.W. Designated Oats; $60.00 per tonne ($1.31/bu.) for No. 1 C.W. Barley and $105.00 per tonne ($2.29/bu.) for S.S.C.W. 6 Row Barley.

- Canadian Wheat Board Minister Charles Mayer announced a $705 million interim payment under the Western Grain Stabilization Act for the 1986-87 crop year. The payment to 60 600 Saskatchewan participants was $382 million. A final payment totalling $693 million, $377 million to Saskatchewan, was announced in November 1987.

22 - bison and mushrooms added as eligible farm enterprises under the loan program of the Agricultural Credit Corporation. Bison were also added as eligible livestock under the Saskatchewan Livestock Cash Advance Program.

27 - Federal Agriculture Minister John Wise announced a phase-out of the moratorium on foreclosures by Farm Credit Corporation effective May 1, 1987. The F.C.C. moratorium on foreclosures was declared in September 1985 in order that F.C.C. clients would not be forced off farms while assistance programs were being developed.

30 - the Canadian Transport Commission announced the freight rate scale for the 1987-88 crop year. In accordance with the requirements of the Western Grain Transportation Act, the average cost paid by the shipper of moving grain from prairie points to Thunder Bay and Vancouver would increase by $2.35 per tonne to $8.32 per tonne. Federal Transport Minister John C. Crosbie and Canadian Wheat Board Minister Charles Mayer subsequently announced a $64 million program to offset most of the statutory increase. For the 1987-88 crop year, the average cost paid by the shipper would increase $0.35 per tonne to $6.32 per tonne. The average difference of $2.00 per tonne would be paid by the federal government to the railways.

- above normal temperatures and below normal precipitation were reported across most of Saskatchewan during April. Above normal precipitation was received in isolated locations in eastern and central districts and in the northwest agricultural area. Most of the month's rainfall occurred at mid-month and at month-end. Strong winds accompanied the warm, dry weather during the second and third weeks. The warm, dry weather allowed spring field work to begin by the end of the month. Seeding in southern locations was well advanced by the end of April.

May

7 - Federal Agriculture Minister John Wise announced that eastern grain producers would receive an interim stabilization payment for 1986 corn, soybeans and winter wheat under the **Agricultural Stabilization Act**. The payments were $15.00 per tonne for corn; $11.00 per tonne for soybeans and $14.00 per tonne for winter wheat.

15 - Federal Agriculture Minister John Wise announced a stabilization payment for white pea beans produced in 1985. The payment, under the **Agricultural Stabilization Act**, was calculated at $79.85 per tonne and was estimated to total $4.75 million.

- the **National Tripartite Stabilization Committees** announced that no stabilization payments for cattle, hogs or lambs would be made for the first quarter 1987.

21 - the Saskatchewan Beef Stabilization Board mailed payments totalling $3.7 million to participants of the **Saskatchewan Beef Market Insurance Programs** for the January-March 1987 program period.

- Saskatchewan was generally hot and dry during May. **Temperatures** were above normal for most of the month but turned cooler during the third and fourth weeks. Frost was received at mid-month and heavy frost of 5°C - 6°C was widespread May 21-22 resulting in some reseeding of canola and barley. May **rainfall** was extremely variable with heavy rains during the last week pushing accumulations to above normal in some areas. Generally however, provincial precipitation amounts were below normal. The hot and dry weather allowed **seeding** to progress at a week to ten days ahead of normal. By month-end, Saskatchewan farmers had completed seeding 30.4 million acres to the major grains, oilseeds and specialty crops.

June

1 - **Product Specific Registration** policies were changed to reduce the length of time that farm chemical data would be protected. Under PSR II, original data would be protected for ten years from the date of registration, allowing a shorter time period for introduction of generic chemicals.

2 - Saskatchewan Finance Minister Gary Lane announced that the provincial **flat tax** would increase by one-half of a percentage point to 1.5% of net income, retroactive to January 1, 1987. To achieve the increase, the tax was increased by one percentage point, **effective July 1, 1987.**

9 - the Advisory Committee to the Canadian Wheat Board announced that it would undertake a review of the **CWB quota system.**

11 - Federal Agriculture Minister John Wise and Canadian Wheat Board Minister Charles Mayer announced that the second payment of $700 million under the one billion dollar **Special Canadian Grains Program** was being made to Canadian grain producers. The first payment of $300 million was made during January and February 1987. It was also announced that irrigation farmers in crop insurance risk areas 12 and 13 in Saskatchewan and risk areas 1, 2, 3, 5 and 12 in Alberta would qualify for supplemental payments.

17 - Saskatchewan Finance Minister Gary Lane presented the **1987 Budget** which included: implementation of a rebatable **fuel tax** of 7.0 cents per litre effective June 22, 1987; an increase in the **Education and Health tax** from 5% to 7% effective June 18, 1987; the suspension of enrolments under the **Farm Purchase Program** effective June 18, 1987; and commitments to new initiatives for farm equity financing, increased agriculture development initiatives, irrigation enhancements, a more effective market information system, modifications to the Livestock Cash Advance Program and the establishment of an agriculture development secretariat to monitor and promote agriculture interests in trade discussions and provide a focus for agriculture diversification.

18 - Federal Finance Minister Michael Wilson presented a White Paper on **tax reform**. To address the tax treatment of farm losses, proposals included a profit test to determine whether a farm loss could be deducted, a gross revenue test to determine the level of the loss to be deducted and calculation of farm income and losses on a modified accrual basis to reflect economic gain or loss. Other proposals included elimination of block averaging and forward averaging and restricting the $500 000 capital gains exemption, for purchases of farm land after June 17, 1987, to full-time farmers. On **December 16, 1987**, Finance Minister Wilson presented a Ways and Means Motion to implement the changes proposed in the White Paper. The White Paper Proposals dealing with the profit and revenue tests and accrual accounting were not implemented. Consultations regarding the tests would continue. The modified accrual accounting system proposal was dropped and a proposal for retaining the cash accounting system with an inventory adjustment mechanism was presented.

22 - the Canadian Grain Commission filed a notice of intent, effective **August 1, 1988**, requiring all **producer car shippers** of rye, flax and canola to have a confirmed export sale before the shipper is allocated a producer car.

23 - Saskatchewan Premier Grant Devine announced that the **Farmers Oil Royalty Refund Program** would operate annually to be consistent with the operation of the fuel tax rebate program which was announced in the June 17 Budget. Under the oil royalty refund program, farmers can apply for a 2.1 cents per litre refund on fuel purchased in 1987 for farm use.

30 - Federal Agriculture Minister John Wise introduced changes to the **Farm Improvement Loans Act** including: guarantees on loans made to farmer cooperatives to process, market and distribute products; increasing the borrowing limit from $100 000 to $250 000; extend the definition of a farmer to include those with off-farm employment; a refinancing option; a user fee of one-half of one percent; reducing the government loan guarantee to 95% and placing a 5% loan loss share on the lending institution and renaming the Act to the Farm Improvement and Marketing Co-operative Loans Act. The Act became effective **February 1, 1988** upon expiration of the F.I.L.A.

- the Federal Government offered to export only sulfa-free **honey** to the United States and began testing of Canadian honey for sulfa on July 1, 1987. Earlier in the year, the Federal Government set the tolerance level for sulfa at one part per million after Quebec rejected imports of Western Canadian honey.
- June was drier and warmer than normal across most of Saskatchewan. Light frost was recorded in northern points but above normal daytime highs resulted in near or above normal **temperatures** during the month. With the exception of isolated locations in the extreme northeast agricultural region and the Moosomin-Broadview area in the southeast, **rainfall** accumulations were below normal. The majority of the rainfall which did occur was in the form of scattered thundershowers. By month-end, **crops** were under heat stress. Some fall-seeded crops were being cut for feed while stubble-seeded crops and oilseeds in west central and southeast areas were being worked under. Early-seeded crops were still in good condition and were developing 7 to 10 days ahead of normal. The lack of spring rainfall reduced the size of the 1987 first cut tame hay crop to an estimated 0.7 tonnes per acre, one-half to two-thirds of normal.

July

1 - implementation of the tripartite **feeder/slaughter** cattle **stabilization** program providing beef producers in participating provinces with two additional stabilization plan options--feeder cattle and combined feeder/slaughter.

- Federal Transport Minister John Crosbie announced that assistance rates for feed grains moved into Newfoundland under the **Feed Freight Assistance Program** were being increased to $50.00 per tonne.
- United States Secretary of Agriculture Richard Lyng set the **1988-89 loan rate** for wheat at $2.17 per bushel, the minimum rate permitted under the 1985 U.S. Farm Bill, and down from the 1987-88 loan rate of $2.28 per bushel.

10 - the Canadian Wheat Board announced that, although the deadline for further **reassignment of quota acres** for the 1986-87 crop year had expired, producers could reassign quota acres to selected two-row varieties of barley. Reassignment was allowed if producers had sufficient acreage to cover deliveries on all other grains.

21 - Federal Agriculture Minister John Wise announced that, for loans approved after July 20, 1987, Farm Credit Corporation **interest rates** were being raised to 11.5% for five-year fixed interest term loans; 11.75% for ten-year fixed term and 12.0% for 15-year (or more) fixed term.

22 - the **Saskatchewan Hog Assured Returns Program** announced that no stabilization payments would be made for the April-June 1987 program period.

31 - the Canadian Wheat Board announced **1987-88 initial prices** for all grades of grain, including No. 1 Canada Prairie Spring--$75.21 per tonne basis Thunder Bay, No. 1 C.W. Utility--$84.21 per tonne, No. 1 C.W. Red Winter--$89.21 per tonne, No. 1 C.W. Soft White Spring--$85.00 per tonne and Special Select C.W. 2-Row Barley--$115.00 per tonne. The initial prices for the base grades were announced April 20.

- Canada **exported** a record 30.15 million tonnes of the major grains and oilseeds during the 1986-87 crop year. The previous record was 29.55 million tonnes in 1983-84.
- **temperatures** across Saskatchewan averaged slightly lower than normal during July while **precipitation** amounts exceeded normal in most Saskatchewan locations. Less than normal rainfall was received in the Saskatoon area in central Saskatchewan. While most of the month's rainfall was in the form of scattered thundershowers, a general rain was received across the province during the second week. At month-end, Saskatchewan **crops** were seven to ten days ahead of normal--fall-seeded crops were ripe, spring cereals had headed and oilseeds had flowered.

August

1 - United States Secretary of Agriculture Richard Lyng announced the **1987-88** preliminary **loan rate** for soybeans at $4.77 per bushel, the minimum allowed under the 1985 U.S. Farm Bill. The effective loan rate for 1986-87 was $4.56 per bushel due to the Gramm-Rudman-Hollings Act. The final loan rate for 1987-88 was set on **September 25** at $4.77 per bushel.

4 - Prime Minister Brian Mulroney announced the **Western Diversification Fund**, providing $1.2 billion over five years to diversify the Western Canadian economy, including agriculture.

- Elders IXL, of Australia, purchased **Allstate Grain**, including the inland terminal at Moose Jaw.

12 - the United States **Court of International Trade** instructed the International Trade Commission to review its 1985 decision that live hog imports from Canada had caused injury to U.S. producers and asked the U.S. Department of Commerce to re-examine the calculations which resulted in a countervail duty of $4.39 Cdn. per cwt. on live hogs imported from Canada. The I.T.C. ruled on **September 15, 1987**, that exports of Canadian hogs were hurting U.S. producers and retained the duty of $4.39 per cwt.

13 - Saskatchewan Premier Grant Devine announced a program to compensate honey producers whose colonies had to be destroyed due to tracheal mite infestation. The **Honey Bee Tracheal Mite Control Compensation Policy** provided compensation of up to $25.00 per colony and was expected to cover 3 000 Saskatchewan colonies.

14 - Saskatchewan Highways and Transportation Minister Grant Hodgins announced that the driver's licence **registration fee** would increase by $10.00 effective **October 1, 1987** and that the vehicle registration system would be restructured, effective **October 1, 1987**.

20 - Saskatchewan Premier Grant Devine announced the introduction of a new **Saskatchewan Veterinary Act**, updating the previous Act in effect since 1960.

24 - rail workers for CN Rail and CP Rail walked off the job after failing to reach agreement on a new contract. The strike ended August 28 after the Federal Government passed back-to-work legislation.

27 - the Saskatchewan Beef Stabilization Board announced payments totalling $1.45 million to participants of the Saskatchewan Beef Market Insurance Programs for the April-June 1987 program period.

- the National Tripartite Stabilization Committees announced that no stabilization payments for cattle, hogs or lambs would be made for the second quarter 1987.
- temperatures averaged below normal across the province during August while rainfall accumulations were above normal in most locations. Near-freezing temperatures were reported in various locations on the 12th, the 22nd-24th weekend and on the 30th-31st. Below zero temperatures were recorded in east central Saskatchewan on the morning of the 23rd. Although rainfall was extremely variable in amount, frequency and location, most of the province reported above normal rainfall accumulations during the month. Points east of a line through Hudson Bay-Moose Jaw-Estevan recorded below normal rainfall. Below normal rainfall was also recorded in the extreme northwest. By month-end, three-quarters of the swathing and one-quarter of the 1987 harvest had been completed.

September

2 - Saskatchewan Premier Grant Devine announced changes to the Livestock Cash Advance Program including: reduced eligibility to 70 percent of the producer's herd, advance limits of $50 000 per producer and implementation of a user processing fee.

14 - Federal Agriculture Minister John Wise announced that, for loans approved after September 13, 1987, Farm Credit Corporation interest rates were being raised to 12.0% for five-year fixed interest term loans; 12.25% for ten-year fixed term and 12.25% for 15-year (or more) fixed term.

28 - marine engineers on the Great Lakes went on strike after failing to reach agreement on a new contract. The engineers returned to work after a tentative settlement was reached October 18.

29 - United States Secretary of Agriculture Richard Lyng set the 1988-89 loan rates at the lowest level allowed under the 1985 U.S. Farm Bill and 5% below 1987-88. The 1988-89 loan rates were set at $1.74 per bu. for corn; $1.42 per bu. for barley; $0.89 per bu. for oats and $1.48 per bu. for rye. The 1988-89 loan rate for wheat was set July 1 at $2.17 per bu.

- C.N. and C.P. agreed not to increase rail rates for double-deck cars during the October-December fall livestock shipping season but would increase rates for single-deck cars by 65%.
- Saudi Arabia, a major world buyer of barley, reduced its import subsidy from $106.00 Cdn. per tonne to $35.00 Cdn. per tonne.

- September was generally warm and dry across Saskatchewan. Overnight lows were below freezing on numerous occasions but daytime highs of 15°C - 25°C throughout the month resulted in monthly temperatures averaging 2°C - 3°C above normal. Rainfall during the month ranged from below normal to well-below normal across most of the province. Only isolated locations in eastern regions received rainfall approaching normal, the result of heavy showers. The near ideal harvesting weather allowed most producers to complete the 1987 harvest by month-end. Saskatchewan's production of major grains and oilseeds totalled 22.2 million tonnes, down from 1986 record production of 25.3 million tonnes but 1.6 million tonnes above average. Production of major specialty crops reached a record .72 million tonnes in 1987.

October

3 - Canada and United States agreed in principle on the elements to be included in a free-trade agreement. The **Free Trade Agreement**, signed by Prime Minister Brian Mulroney and President Ronald Reagan **January 2, 1988**, will become effective **January 1, 1989**. The F.T.A. includes the removal of all tariffs over a ten-year period, an exemption from each others' meat import laws and the removal of export subsidies in bilateral trade.

6 - Saskatchewan Auto Fund Minister Joan Duncan announced that **insurance premiums** would increase by an average ten percent, effective **January 1, 1988.**

13 - Simplot Chemical Company opened a liquid **fertilizer** manufacturing plant at Tuxford.

15 - Saskatchewan Premier Grant Devine announced the **Ethanol Incentive Program** to encourage Saskatchewan ethanol production. The program provides for a 4.0 cent per litre payment to marketers of gasohol and 1.2 cents per litre for the ethanol-methanol blend (3% ethanol, 5% methanol, 92% gasoline).

19 - world **stock markets** experienced record "crashes", ending a five-year bull market. The New York Dow Jones industrial declined 508 points to close at 1 738.42 while the Toronto composite index lost 400 points. Although the markets experienced record declines, both markets finished 1987 above year-end 1986.

20 - Grains and Oilseeds Minister Charles Mayer announced **1987-88 initial price** increases for oats and designated oats. Initial prices were raised $25.00 per tonne October 26, 1987 for both oat pools and brought the initial prices to $80.00 per tonne for No. 1 Fd. Oats and to $125.00 per tonne for No. 1 C.W. Designated Oats, basis Thunder Bay. Adjustment payments for August 1-October 25 deliveries were mailed to producers in November.

23 - Federal Agriculture Minister John Wise announced that **honey bee** imports from the United States would be banned for the remainder of 1987. The ban was implemented as a result of reports of the varroa mite in colonies in Wisconsin and Florida. The ban was subsequently extended until December 31, 1989 following confirmed findings of the mite in Florida and in Wisconsin.

- the **Saskatchewan Hog Assured Returns Program** announced that no stabilization payments would be made for the July-September 1987 program period.

- the **National Tripartite Hog Stabilization Committee** announced that no stabilization payments for hogs would be made for the July-September 1987 program period.

- October was generally cool and dry with temperatures averaging 0.5°C - 1.5°C below normal. October rainfall was one-third to one-half of normal across most of the agricultural region. However, in the Prince Albert-Hudson Bay area precipitation was 50% to 100% above normal and in the Humboldt-Yorkton area rainfall was 10% to 25% above normal.

November

4 - the **Western Grain Standards Committee** recommended changes related to the grading of oats, canola and green peas. The Committee recommended that: chlorophyll content be adopted as a grading factor in canola efffective **August 1, 1989**; the number of oat grades be reduced from six to four to facilitate handling; and establishment of a standard for green peas. At the present time, chlorophyll content in canola is determined by visual inspection while green peas are graded under the schedule for peas. The proposed new grade names for oats are No. 1, 2, 3 and 4 C.W. oats, the word feed would be deleted.

20 - Grains and Oilseeds Minister Charles Mayer announced a final payment of $693 million under the **Western Grain Stabilization Program** for 1986-87. Combined with the initial payment of $705 million made in April, the total 1986-87 crop year payout was $1.398 billion. The total payout to Saskatchewan producers was $759 million.

25 - the Saskatchewan Beef Stabilization Board announced payments totalling $4.6 million to participants of the **Saskatchewan Beef Market Insurance Program** for the July-September 1987 program period.

- the Canadian Wheat Board announced an ammendment to its car allocation policy **effective December 1, 1987** to offer bonus rail cars for clean grain. Under the experiment, a grain company would receive one bonus car for every ten cars of grain cleaned in the prairies for west coast unload.

28 - the rail bridge over the Fraser River was closed after being hit by a barge. The bridge was reopened to traffic in **January 1988**.

- the **National Tripartite Beef and Lambs Stabilization Committees** announced that no stabilization payments for cattle or lambs would be made for the third quarter 1987.

- Saskatchewan weather was warm and dry across the province during November. Daytime highs were above freezing throughout the month while nighttime lows did not fall below -20°C in the grain growing regions. As a result, November temperatures were 3°C - 5°C above normal across most of the region. Isolated locations in east central Saskatchewan reported below average monthly temperatures. Total rain and snow during the month ranged from 5% of normal in central regions to two-thirds of normal in west central locations.

December

2 - Saskatchewan Power Corporation announced that electrical rates and gas rates would increase **January 1, 1988**. The farm electrical rate increase is four percent and the farm gas rate increase is two percent.

4 - Federal Agriculture Minister John Wise announced final payments to eastern grain producers under the **Agricultural Stabilization Act** for corn, soybeans and winter wheat sold in 1986. The final payments were $14.70 per tonne for corn; $0.40 per tonne for soybeans and $11.12 per tonne for winter wheat. The total payment, including an interim payment made in May, for 1986 crop sales was $170 million.

8 - grain workers at **Prince Rupert Grain Ltd.** walked off the job after contract negotiations failed to reach agreement on staffing issues. The federal government passed back-to-work legislation **January 19, 1988**.

9 - SaskTel announced that the rate for basic **telephone** services would increase five percent, effective **December 15, 1987**.

15 - Prime Minister Brian Mulroney and Agriculture Minister John Wise announced that the **Special Canadian Grains Program** would provide $1.1 billion to Canadian farmers for the 1987 crop. Saskatchewan's share of the payment was estimated at $477 million. The federal government also announced: extension of the **Farm Fuel Tax Rebate Program** to December 31, 1989; extension of the **Canadian Rural Transition Program** to 1991; extension of the **Farm Debt Review Boards** to 1991; additional funding to the **Farm Credit Corporation** for participation in the Farm Debt Review Board Process and the Commodity Based Loans Program; deferment of a $103 million loan payment due from **F.C.C.**; a provision of $100 million for **F.C.C.** corporate losses; $7.1 million payment to potato growers under the **Agricultural Stabilization Act**; a $750 million write-off of the deficit in the **Western Grain Stabilization Program** and plans to amend W.G.S.A. to increase producer participation, to increase the list of eligible crops and to increase the levy rate.

- Saskatchewan Premier Grant Devine announced extension of the **Counselling and Assistance for Farmers Act** and the **Farm Land Security Act** to December 31, 1988 and also announced a ten-year term repayment option under the **Production Loan Program**.

16 - Federal Finance Minister Michael Wilson presented a **Ways and Means Motion** to implement the changes proposed in the June 18, 1987 White Paper on Tax Reforms. The motion included the elimination of block averaging and forward averaging. Consultation would continue on the proposed profit and revenue tests and on a cash accounting system with an inventory adjustment provision. Proposals for modified accrual accounting were dropped.

22 - Federal Agriculture Minister John Wise and International Trade Minister Pat Carney announced that the federal government would not set meat import quotas for 1988 but would continue its authority to do so under the **Meat Import Act**. Canada is required to accept a minimum of 68 thousand tonnes of beef and veal during 1988.

28 - CN provided public notice of application to offer **grain shipping rate** reductions, in co-operation with 17 grain shippers, for the 1988-89 crop year.

- CP rail provided public notice of application to offer incentive **shipping rates**, in co-operation with 15 grain shippers, for the 1988-89 crop year.

- December, like November, was mild and dry across Saskatchewan. **Temperatures** averaged 4°C - 6°C above normal while snowfall totals ranged from one-tenth of normal in southern areas to above normal in isolated locations in the northeast. Within these extremes, **snowfall** averaged one-third to two-thirds of normal through most of the agricultural region.

*Effective the 1984-85 crop year the Canadian Grain Commission allowed operators of primary elevators to licence two or more adjacent facilities, which were under the control of a single manager, as a single primary elevator.

**Capacity is measured in tonnes of wheat storage capacity.

*The operating period of the Western Grain Stabilization Program was changed from a calendar year to a crop year, effective August 1, 1983. Producer levy collected for 1983-84 is the period January 1, 1984 to July 31, 1984. This procedure was required to permit the transition from a calendar year to a crop year calculation.

Table 130 - Metric Conversion Factors Used

1 kilogram	=	2.2046 pounds
1 tonne	=	1.1023 tons
	=	22.0464 hundredweight
	=	36.7437 bushels of wheat or durum
	=	64.8418 bushels of oats
	=	45.9296 bushels of barley
	=	39.3683 bushels of rye or flaxseed
	=	44.0925 bushels of canola
1 litre	=	.21997 gallons
1 millimetre	=	.03937 inches

1 kilolitre of milk (3.5% b.f.) = 22.6761 hundredweight
